Okta Quick Start Guide

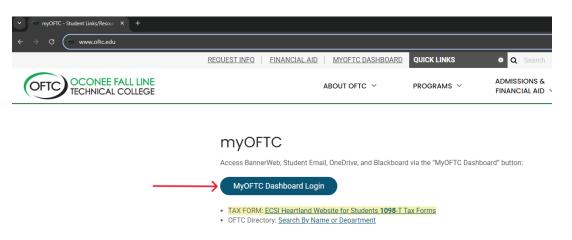

This guide is designed to step you through the initial setup of the Okta Verify application on your device for secure access and single sign-on (SSO) functionality. You must do the initial setup from a computer, laptop, or a device separate from the device you are setting up the Okta Verify app on.

Login Setup

- 1. Access your OFTC Dashboard.
 - In the URL box of your web browser, type in www.oftc.edu to go to the college website.
 - Click on the MYOFTC DASHBOARD link at the top of the page. Depending on your device, you may need to click a menu symbol and select MYOFTC DASHBOARD at the bottom of the list.

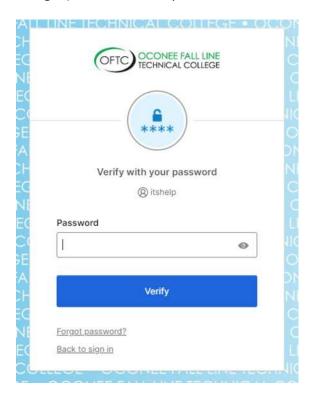

2. Click on the MyOFTC Dashboard Login button.

- 3. Enter your username, which is your full OFTC student email address
- 4. Click the Next button.

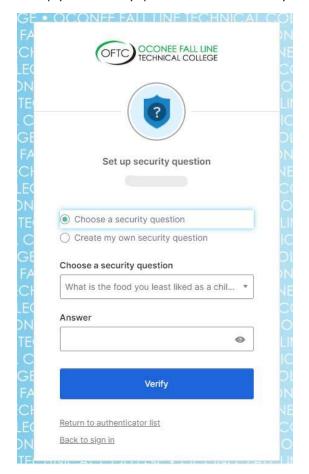

5. Enter the **password** that was provided to your personal email address after applying to the college. (Be sure to check your SPAM or Junk folder for this email.) Then click **Verify**.

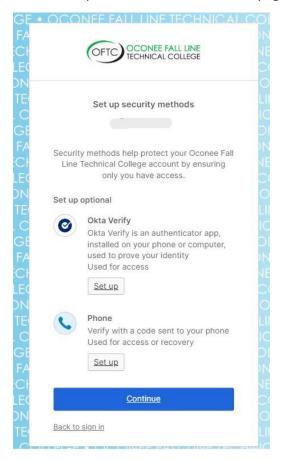

- 6. If you see the security question setup screen,'
 - a. click set up.

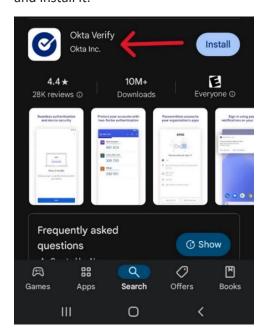

b. Set up your security question then click verify.

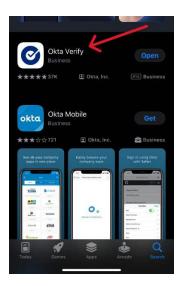

7. On the set up multifactor authentication page, select Okta Verify and click the Setup button.

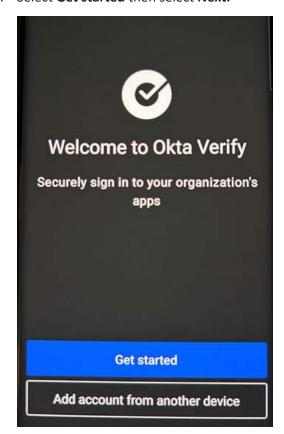

- 8. Next you will go through the installation steps for your type of device.
 - a. On your device, download Okta Verify from the Google Play Store or Apple App Store and install it.

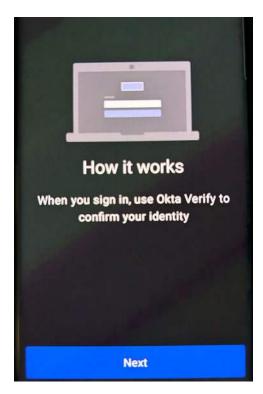

b. Open the app and follow the instructions to add your account.

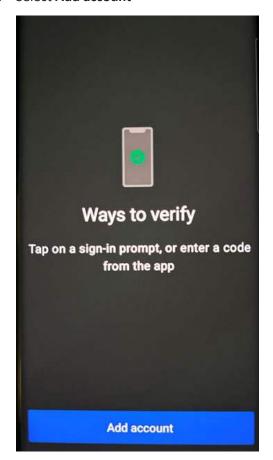

- 9. For first time installation, you may see the Welcome to Okta Verify screen.
 - a. Select **Get started** then select **Next.**

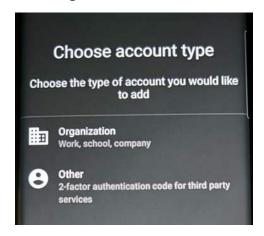

b. Select **Next**

c. Select Add account

d. Select **Organization**

e. Select Skip

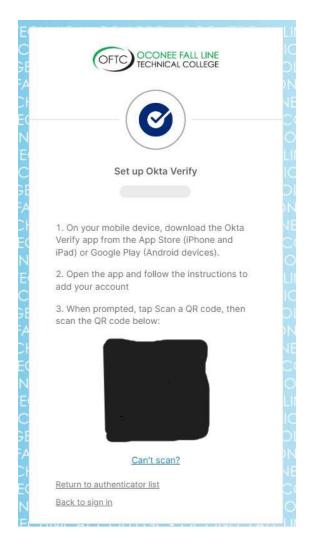

f. Select Yes, ready to scan

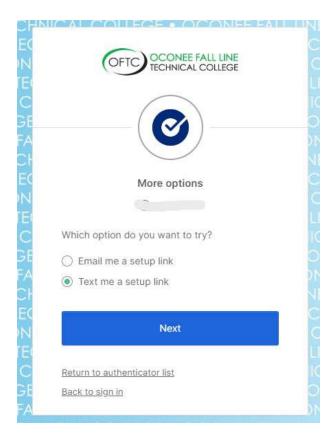

You may need to allow camera permission for the app. Your device will notify you to do so.

When prompted, point your camera at the QR code displayed in the browser on the computer.

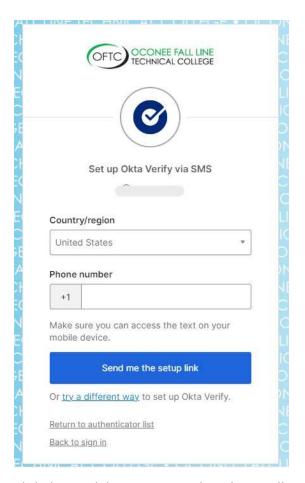

The installation should complete. Select Finish if it prompts you.

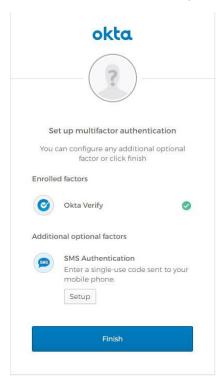

If you are unable to scan the QR code, click Can't scan? on the QR code screen. Select Text me a setup link then click Next.

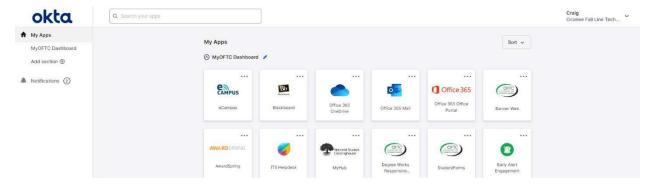

Put in your number, select Send me the setup link, then follow the instructions sent to you.

Click the Finish button to complete the installation and setup process.

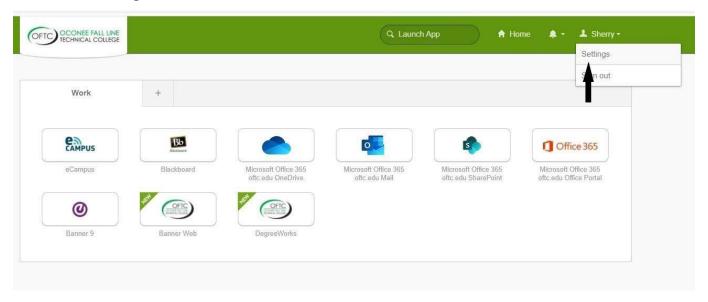

When complete, you will be taken to your MyOFTC Dashboard homepage.

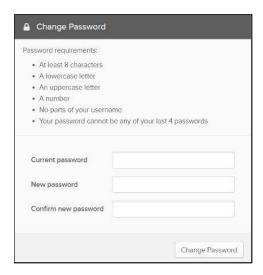

Change Password

If you know your current password but want to change it, use these steps.

- 1. Click your name in the upper right corner of the login landing page.
- 2. Click Settings.

- 3. Click Edit Profile.
- 4. Key your password.
- 5. Click Verify.
- 6. Click the drop-down arrow beside the Okta logo and choose the authentication method you prefer. For text message authentication, click Send code.
- 7. Key the code received on your mobile device.
- 8. Click Verify.
- 9. Enter your password information in the form, and click **Change Password**.

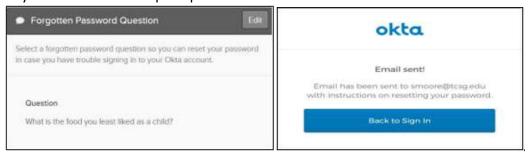

Forgotten Password Setup

Setting up forgotten password options beforehand will help you reset your password in the future should you forget it.

Setup Forgotten Password Question Option

- 1. Click your name in the upper right corner of the login landing page.
- 2. Click Settings.
- 3. Click Edit Profile.
- 4. Key your password.
- 5. Click Verify.
- 6. For SMS (text message) Authentication, click Send code.
- 7. Key the code received on your mobile device.
- 8. Click Verify.
- 9. Click **Edit** on the **Forgotten Password Question** to select a forgotten password question.
- 10. Key correct answer in space provided and click Save.

Set up Forgotten Password Text Message Option

You also have the option to recover your password via text message. Okta can send you a text message with a recovery code. This feature is useful when you don't have access to your email.

- 1. Click your name in the upper right corner of the login landing page.
- 2. Click Settings.
- 3. Click Edit Profile.
- 4. Key your password.
- 5. Click Verify.
- 6. For SMS (text message) Authentication, click Send code.
- 7. Key the code received on your mobile device.
- 8. Click Verify.
- 9. Click Edit on the Forgot Password Text Message module.
- 10. Click Add Phone Number.
- 11. Change to **United States** is necessary on the **Country** option.
- 12. Key your mobile phone number in the space provided.
- 13. Click Send Code
- 14. Enter Code
- 15. Click Verify
- 16. Click Done

Reset Password

If you have forgotten your password and need to reset it, use these steps. On the Okta Sign In screen:

- 1. Click Need help signing in?
- 2. Click Forgot password?

- 3. Key email or username
- 4. Click the option of choice for resetting your password and follow the on-screen prompts.
