

Blackboard App

Download the Blackboard App and stay seamlessly connected with your courses and elevate your learning experience.

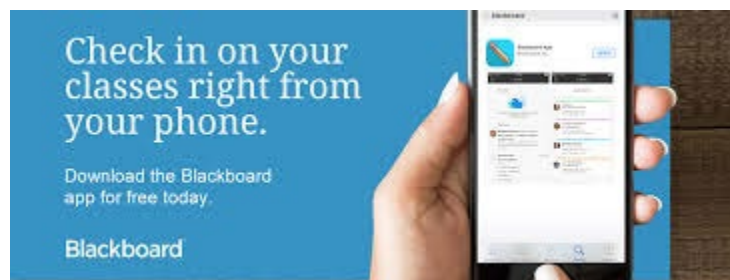

For students:

- **Stay informed**—instantly view updates and changes to your courses.
- **Receive Real-time Alerts**—receive notifications for due dates, announcements, and more.
- **Manage Coursework**—easily complete and submit assignments and track your progress. You can view, complete, and submit assignments and tests right in the app. **Important note:** Tests may not be mobile compatible. Testing options selected by your instructor may prevent testing on the mobile app. Always take exams in the most stable environment possible which may be a computer browser such as Chrome, Firefox, Safari, etc. Additionally, your instructor may require you to take exams using the Respondus Lockdown Browser which is not mobile compatible.
- **Check Grades**—access grades for courses, assignments, and tests with just a few taps.
- **Plus, More**—explore additional features tailored to enhance your educational journey.

For Instructors:

- **Efficient Course Management**—upload and organize course materials and assessments effortlessly.
- **Timely Notifications**—set up custom alerts such as when submissions are ready for grading, messages from students, and more.
- **Streamlined Grading**—grade assignments and provide feedback from your phone or tablet.
- **Student Engagement**—send course announcements, create and manage discussion threads, and interact with student comments.
- **And, More**—utilize tools designed to support your teaching and engagement.

Please note: The Blackboard App functions in conjunction with OFTC's Blackboard server. Access and features may vary depending on allowed settings and software updates.

OFTC does not provide support for setting up or maintaining the Blackboard Learn student app and does not guarantee that it will work with all mobile devices.
