

Federal regulations require colleges to disclose information regarding their occupational programs that require a state licensure to be employed. Reference the program of choice, and view the status that program has for your state of residence at the initial time of enrollment. If the state you are located in does not appear, we cannot guarantee the program if study will be able to lead you to a state occupational licensure in your state.

Programs Leading to Licensure	States in which Program MEETS Licensure Requirements	States in which Program does NOT meet Licensure Requirements	Notes and Additional Links
Associate Degree in Nursing Bridge {AD53}	Georgia		Students who choose to test for and pass a Georgia licensure exam will be licensed in Georgia. The college is not aware of other state's licensure requirements besides Georgia and cannot guarantee its program of study will meet the requirements of other states to sit for their licensure exam. Refer to your current state's applicable regulations to determine if the college name's program meets your state's criteria. This website: uniform licensure requirements may assist in finding your state's regulations, but each state's governing body and policy is the final authority on applicable licensure regulations in their respective states.
