

Okta Quick Start Guide

This guide is designed to step you through the initial setup of the Okta Verify application on your device for secure access and single sign-on (SSO) functionality. **You must do the initial setup from a computer, laptop, or a device separate from the device you are setting up the Okta Verify app on.**

Login Setup

1. Access your OFTC Dashboard.

- In the URL box of your web browser, type in www.oftc.edu to go to the college website.
- Click on the **MYOFTC DASHBOARD** link at the top of the page. Depending on your device, you may need to click a menu symbol and select MYOFTC DASHBOARD at the bottom of the list.

2. Click on the MyOFTC Dashboard Login button.

3. Enter your **username**, which is your full OFTC student email address. Click the **Next** button.

6. On the set up multifactor authentication page, select Okta Verify and click the Setup button.

7. Next you will go through the installation steps for your type of device.
 - a. On your device, download Okta Verify from the Google Play Store or Apple App Store and install it.

Open the app and follow the instructions to add your account.

8. For first time installation, you may see the Welcome to Okta Verify screen.
 - a. Select **Get started** then select **Next**.

- b. Select **Next**

- c. Select **Add account**

- d. Select **Organization**

- e. Select **Skip**

- f. Select **Yes, ready to scan**

You may need to allow camera permission for the app. Your device will notify you to do so.

When prompted, point your camera at the QR code displayed in the browser on the computer.

The installation should complete. Select **Finish** if it prompts you.

If you are unable to scan the QR code, click Can't scan? on the QR code screen. Select Text me a setup link then click Next.

Set up Forgotten Password Text Message Option

You also have the option to recover your password via text message. Okta can send you a text message with a recovery code. This feature is useful when you don't have access to your email.

1. Click your name in the upper right corner of the login landing page.
2. Click **Settings**.
3. Click **Edit Profile**.
4. Key your password.
5. Click **Verify**.
6. For **SMS (text message) Authentication**, click **Send code**.
7. Key the code received on your mobile device.
8. Click **Verify**.
9. Click **Edit** on the **Forgot Password Text Message** module.
10. Click **Add Phone Number**.
11. Change to **United States** is necessary on the **Country** option.
12. Key your mobile phone number in the space provided.
13. Click **Send Code**
14. Enter Code
15. Click **Verify**
16. Click **Done**

Forgot Password Text Message

Okta can send you a text message with a recovery code. This feature is useful when you don't have access to your email.
